

Where Is The Internet Going?

An analyst I used to follow in my investment days, [Henry Blodget](#), is now an editor for [Business Insider](#), and his own company has been on top of the internet space since the beginning. I like hearing what he has to say because he has had so many years watching the ups and downs of the firms in this space, and he offers good insight into where these companies are going.

Business Insider recently held its annual IGNITION conference with great speakers from [LinkedIn](#), [Google](#), [Groupon](#), and [Time Warner](#).

Make the Trend Your Friend

[Mary Meeker](#) recently released her [annual overview of internet trends](#), and I found it to be very insightful. You may remember that I have discussed Mary's research and opinions on this topic in some of my previous blogs. She pushed forward as a leader in this space with different investment banking firms and is now a partner at one of the most prestigious venture capital firms, [Kleiner Perkins](#).

The Mobile Future is Right

Before Our Eyes!

Last week, I traveled to Dallas, TX for a guys' weekend with my son Tony, his close friend Steven, and my brother Mark. While there, we also attended the Bills vs. Cowboys football game. Having grown up in Rochester, NY, I am a Bills fan, which is often difficult to endure. That weekend was no exception. Even after a great start to the season, the Bills lost 44 to 7. Other than that, we had a great time, and the Cowboys' stadium is off the charts!

You seem to open your eyes more to what is around you when you're in a new environment, so being a bit more observant, I watched the nonstop mobile usage around me. These observations made me want to share some recent research that has been released. Based on the research and my own thoughts, mobile devices are becoming a powerful force in our lives.
