When there's more than one right answer…

<u>Dewitt Jones</u> tells an exceptional story. He does it with a passion and purpose that he has put into his life as a National Geographic photographer. The title of his talk, <u>Extraordinary Vision</u>, was truly extraordinary. He shares the stories behind these fantastic photographs that make them real and meaningful in a way that sticks with you. I was fortunate enough to see him at both the <u>EO Arizona University</u> and the <u>EO Canada Regional</u>, and was captivated both times. Many people said they felt teary eyed listening to his presentation.
