

# What Are Your Worth per Hour?

What are you worth per hour? What is your company worth per hour?

Are you doing the things in your work that are allowing you to bring the most value to your role, team and company?

There is a way to analyze this and you do it by using the law of 1920. I have done different forms of calculations to look at hourly worth before but [Joe John Duran](#) simplified this for me when he discussed this at [E0 Barcelona University](#). So here we go. If you assume that with vacations and holidays you have 48 work weeks a year and you multiply that by 40 hours a week you get 1920.
