

# Abundance: Why Are We Lacking?

The pervasive worldview today suggests limitations and scarcity, and this restricted perspective seems to be spreading with all the negative feedback we are continually inundated with at every turn. When human civilization and technology repeatedly prove the limited and scarcity thinking wrong, why do we let it consume our consciousness?

If this scarcity mindset was accurate, we would have mostly starved to death by now after all the cries in the '70s that insisted the exploding population would consume all the food. Have you been to a grocery store lately? What about how we were scheduled to run out of oil a decade ago? We should all be walking now and burning our furniture to heat our homes.
