

# Strategy Evolves, Does your Business?

How did your business strategy come about? Was it planned out in advance in the boardroom, or was it done by some type of trial and error? Did you start

out knowing exactly what you were going to become? We started with a plan, but it has evolved into one that has taken time and been filled with trial and error.

## Partnering for Growth

A few weeks back, I shared what we are doing to move forward on the path of concentration around a certain focus with mobile. We have built a mobile app platform that is customizable and appropriate for our focus of working with marketing companies. This has been an evolution for us, and one that recently has had a lot of the details come together.

As I shared before, mobile is growing and the smart phone is being adopted with exponential growth. It has provided opportunity for businesses to connect with their customers that has not been possible before.

---

# Rolling With Change!

My software team and I at [Efficiencie](#) had a business meeting with an investment firm this week, and it was exciting to be back in that world again and see the latest happenings! They had an interest in a [mobile app](#), which is what we are talking about to many companies these days.

The businesses on the forefront are seeing with their own eyes how the Smartphone is enhancing the opportunity to connect and create real interaction and relationships. This is an exciting space to be in, and I am thrilled to have placed myself on this path.

---

## Time Has Limitations, But You Don't!

Being an entrepreneur, I have a mind set to create something better and to “[maximize](#)” the future. One of the things that I like to maximize is time. The problem with that is time is not scalable; it cannot be expanded with increased use. What do we

do then? Since you and I can't change the fact that we all have 24 hours to utilize in a day, we need to approach it differently.

---

## 4 Billion New Customers!

Think about that! If you had access to 4 billion customers, how would that impact your marketing, your strategy, your vision, your opportunities, and your profit potential? Well it's coming, and I see it happening right before my eyes.

Let me back up for a moment and give you some perspective. As I write this, I am at my office in Pondicherry, India. I started [Efficiencie](#) with my partners April and Rich back in 2004 and came to India shortly after to set up the office. We started with one full time team member and one intern and then quickly added five more. We have now grown to 40 bright, enthusiastic, hardworking men and women.

---

## Are You in the Path of the Software Monster?

I am on my way home from India and excited about what is going on at our office in Pondicherry, where we have our software development office. Each time I go, it is exciting to see what has manifested from a small 10' x 15' room with 2 people back in 2004 to a facility expanding 4000 square feet and about 40 people today! This team is filled with smart, highly analytic minds with a desire to grow, progress, and improve their lives while making a positive impact on their families. I have watched as they have matured, gotten married, had children, and bettered their lives, increasing their standard of living. It is a great feeling to see this evolution and connection we have with the team!

---

## What's the Pattern Here?

Have you ever noticed how things work in cycles with observable patterns? As someone whose strength is observing and seeing patterns, I find it helpful to know that these patterns exist and to see if this awareness generates some form of opportunity. This may be because I have that

entrepreneurial instinct that draws out this intrigue, but whatever the case, they seem to pop up everywhere.

## **SWOT your Way to Focus and Flow!**

When you run a business, various opportunities often present themselves and persuade you to run off in different directions, pulling you away from your focus. This happens to me frequently, and I find it difficult to avoid being sucked down a path that sounds like the next great avenue for huge success.

Thankfully, my partners, [E0 Forum](#), or my team usually slap me back into reality. Taking a closer look at what you are doing can also help you discover if these opportunities are worthy or if the current focus is best.
