

# Time Has Limitations, But You Don't!

Being an entrepreneur, I have a mind set to create something better and to "[maximize](#)" the future. One of the things that I like to maximize is time. The problem with that is time is not scalable; it cannot be expanded with increased use. What do we

do then? Since you and I can't change the fact that we all have 24 hours to utilize in a day, we need to approach it differently.

---

## STOP Doing It!

So much of what we do in business is about the things we need to get done. I need to write a report. I need to send e-mails to my clients. I need to create a budget. I need to put a plan together for the next quarterly meeting. On and on it goes with stuff we need to do in order to make progress in our business. Nothing is wrong with this, especially when it creates progress. Progress has been determined to be the number one motivator of both business owners and employees.

# Three Things Scrooge Would Say About Our Business

As we approach Christmas and get to spend more time with our family and friends in a spirited, colorful environment full of lights, we open our hearts and our pocket books to give and share what we have with others. While I cannot speak for you, it makes me feel good to give to others. When it is done with sincerity, I feel it has that effect similar to when the [Grinch's](#) heart grows three sizes. It changed him. I look to the holidays to have that growing heart experience and hope the holidays have the same effect on you.

## Energizing for the New Year!

As this year ends like all the ones before it, we strive to go into the New Year with a fresh outlook and usually one or more resolutions to improve our lives. I often ask others around me about their resolutions and usually find that at least one always has to do with improving health. For an entrepreneur whose world is filled with constant changes, ups, and downs, health and energy are key to pushing forward.

We often hear about how much time we need and how there are never enough hours in a day and so on. We cannot add time. We all have the same number of hours in a day. The level of effort and energy we put into that time can be changed. Much is being written about our need to manage our energy and approach our day and schedule with an energy focus instead of

a time focus.
