

# Not Scaling – Part 2: Starting Small to Build Big

The big news to share this week on bounceit!™ is that the app went live in the app store, after a long period of creation, and we are starting the process of scaling by not scaling, as was discussed in [last week's blog](#). This week will be focused on getting a small group to use and try it out on all devices to make sure everything is flowing

well. Then, we will move to our local and social media friends to give it a try and to share with others, if they like it. And finally, on to the rest of the world.

---

## Scaling bounceit!™ by Not Scaling

Many of us look at the world we live in today and think about an idea we may have that, if launched in our connected world, it would spread and we would become super rich. With the internet and smart phones allowing us to be connected everywhere, this is not a pipe dream. The right idea, combined

with enough money and a strong management team, can push an idea out in the marketplace and accomplish those dreams.

# **The Mobile Future is Right Before Our Eyes!**

Last week, I traveled to Dallas, TX for a guys' weekend with my son Tony, his close friend Steven, and my brother Mark. While there, we also attended the Bills vs. Cowboys football game. Having grown up in Rochester, NY, I am a Bills fan, which is often difficult to endure. That weekend was no exception. Even after a great start to the season, the Bills lost 44 to 7. Other than that, we had a great time, and the Cowboys' stadium is off the charts!

You seem to open your eyes more to what is around you when you're in a new environment, so being a bit more observant, I watched the nonstop mobile usage around me. These observations made me want to share some recent research that has been released. Based on the research and my own thoughts, mobile devices are becoming a powerful force in our lives.
